At Inclusive Play our passion and purpose is to design innovative and delightful play products which offer choice, consider impairments and give children of all abilities the opportunity to play together.....breaking down social as well as physical barriers to inclusive play.

Suitable for use in both public play spaces and closed settings, this small but thoughtfully designed range of sensory and dynamic play items, makes equal play opportunities achievable.

All our product development is undertaken using a collaborative approach. Feedback and input is sought from children, parents, carers and occupational specialists to ensure our goals for inclusion, accessibility and endless fun are achieved.

Product Information

Every product page features a brief introduction to the play item, along with the top 3 Features (→) and Benefits (+) and useful technical information. All age ranges are a guideline only and are flexible depending on user ability.

For extensive information and downloads please refer to our website www.inclusiveplay.com.

About Us

2

IP01

Revolve

A large bowl which spins and rocks for dynamic, locomotor play. A wide rim allows for ease of transfer.

- Large central deep dish Can accommodate several users and safely cocoons individuals who require additional support
- 2 planes of movement Stimulates more senses and provides greater anticipation
- Large surrounding rim At ideal height for ease of transfer out of wheelchair. Users can sit on rim and self-propel

Number of Users - 6 users
Age Range - 4-14 years
Freespace - 31m²
FFH - 1m

IP13

Vortex

This large steel 'basket' sitting on 6 traditional springs, rocks and spins giving both dynamic and challenging play.

- Large central basket Can accommodate several users or one child for a gentle rock
- Deep dish Children who want/need additional security or support are cocooned safely in the basket
- Play experience dependant on user ability Suits all ages and abilities

Number of Users - 4 users

Age Range - 6 years +

Freespace - 36m²

FFH - 0.8m

“The **Revolve** roundabout is very popular indeed!”

Emma Kane, Save The Playground Campaigner

“The **Exosphere** is popular with pupils who are on the autistic spectrum and the younger pupils. They enjoy spinning it around and watching the beads move...It is also a good height for pupils who are wheelchair users to access”

Hazel McPake, Deputy Head Teacher of Pinewood SEN School, West Lothian

“The **Orb** has delightful melodic sounds and an eye-catching design....Judging by the wear patch in the grass this has been one of the most popular pieces of equipment we have recently installed”

Sandra Mousdale, Play Services Manager,
North Lanarkshire Council
