

Specification Sheet

Product Name: BUTTERFLY
Product Code: IP16

Nothing represents the fun and freedom of children's play better than a see-saw and we at Inclusive Play are very proud to offer the Butterfly.

The Butterfly has been designed to provide a soft gliding action making this unit multi-functional. It allows children to play individually or together while sitting, standing or lying down.

The wide surface area of fully porous rubber provides superior support, excellent grip and dampening features, meaning that children can use the unit whilst enhancing their coordination and balancing skills. This combination allows children of all abilities to enjoy this classic piece of play.
