

# IP 29 Buddy Swing

## Moving

Our Buddy Swing is a unique addition to any play space, designed to promote inter-generational play in which a parent or carer can get fully involved in the play experience.

Sitting face to face while playing allows the opportunity for interaction and communication between both users in a fun and playful setting. This close contact with a parent or carer can be vital for some children who need more emotional support within a busy play setting. The face to face seating creates a safe and comfortable environment to be enjoyed in times of stress or upset.
