

IP 09 Fusion

Moving

Our Fusion is a smaller, more compact bowl which provides the same combined rocking and spinning motion as the Revolve. The sensations provided by these bowls are entirely unique and offer much more play value than a traditional roundabout.

The wide rim aids those who can transfer from their wheelchair into the bowl while also providing seating space for those who wish to propel themselves independently.

Activities	Rocking, rotating social, supportive movement
Features	Dual movement Wide rim with treadsafe material
Age Range	3+ years
No. of Users	2
Falling Space	22.4m ²
