

Motion

The Multi Use Seesaw is designed for up to 6 children to use at any one time. This unit is based on a gentle rocking system which helps avoid sudden movement. There are 4 seats for those who are more able and wish to create a rocking motion with an additional space for 2 users on the central pad.

The central pad has braille at both ends 'hold on tight' routed in as well as a tactile bubble design throughout giving those with visual impairments an additional experience. Holding bars and feet supports can be used and the centre pad is designed with 6 hand slots.

Scale: 1:50

A4
