

Motion

This unit has been designed for those who cannot easily get in and out of their wheelchair. It is an essential part of our range as everyone has the right to enjoy the freeing sensation that swinging brings.

The rope pull included within the design allows those with upper body mobility to be able to swing themselves independently. Reinforcing the freedom of play for all.

Please note the dimensions of the platform - some wheelchairs may not fit on the iSwing. See **IP15XL** on our website as this can accommodate larger wheelchairs.

Scale: 1:65

Maximum recommended load 500kg [1102.3lbs]

A4

Activities	.. Swinging, supportive movement, self propelled movement.
Features	.. Wheelchair harnessed swing with ramp.
