

Data Sheet for IP19 - Microsphere

Blue and Yellow

Green and Yellow

Our Microspheres have been designed for installation on walls, fences and play units for sites which may be short on space but still want to increase the sensory play experience. The Ball Maze focuses the mind and allows children to explore problem solving, coordination and team work while the Rain Wheel is visually and aurally stimulating encouraging fine motor skills and coordination. Both Microspheres have been designed with larger handles to make it as easy as possible for everyone to use.

Scale: 1:16

A4

Activities	Sound, movement, puzzles
Features	Large hand grips, 2 game options, simple wall mounting
Age Range	2+ years
No. of Users	1+
Falling Space	This unit has a usage area of 1.95m ² / 20.9ft ²
FFH	0.6m / 1.97ft
Materials	HDPE frame and polycarbonate cover
Approx. Weight	21.9kg 48.3lbs
Concrete Volume	N/A
