

Motion

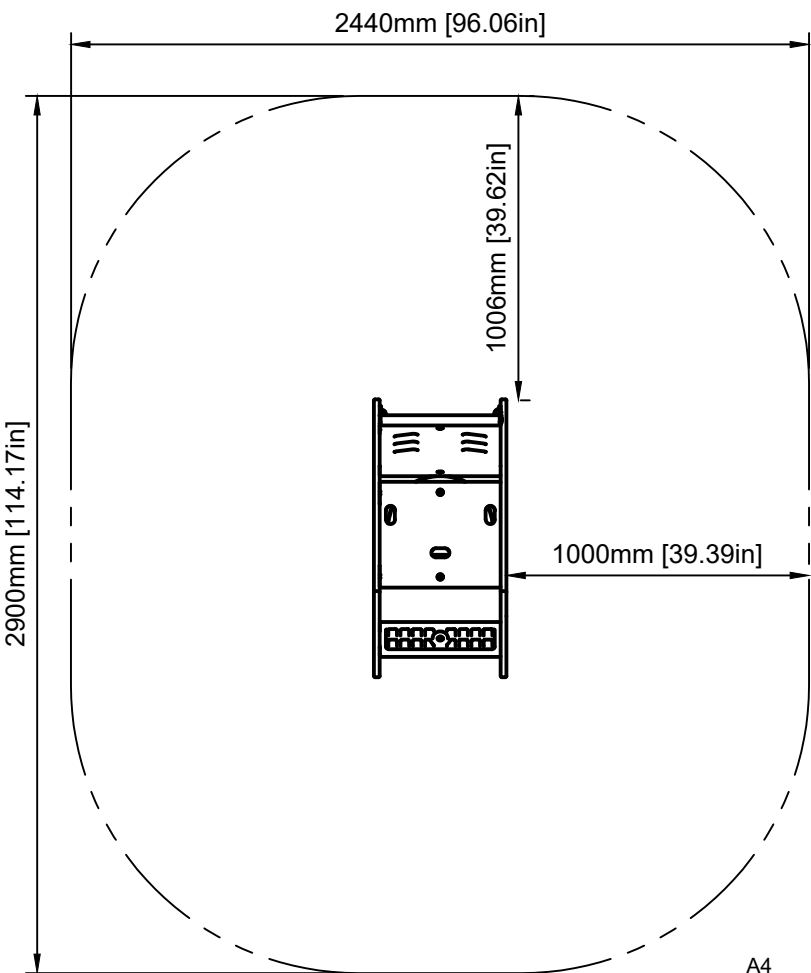

The Rocker is an inclusive rocking experience designed to support physical, cognitive, and social development through play.

Its front-access design allows unobstructed entry, while a high backrest, side supports, integrated footrest, and harness slots provide optimal stability and reassurance for children with lower core strength or physical disabilities.

The specially engineered rocking system prevents sudden movement, allowing children to safely shift their weight and build balance, coordination, and motor control.

Tactile, visually engaging HDPE panels offer rich sensory stimulation, and the smooth, self-directed rocking motion delivers soothing vestibular input that aids spatial awareness, emotional regulation, and cause-and-effect learning.

Designed for comfortable solo play alongside peers, the Rocker encourages turn-taking and shared fun for children of all abilities.

Scale: 1:20

Activities	.. Rocking, sitting.
Features	.. Gentle rocking motion, supportive movement, tactile surface.
Age Range	.. 2+ years
No. of Users	.. 1
Falling Space	.. 7.1m² / 76.4ft²
FFH	.. 1m / 3.3ft
Materials	.. Galvanised & Powder-Coated Steel, HDPE Panels.
Approx. Weight	.. 59kg / 130lbs
Concrete Volume	.. 0.12m³ / 4.3ft³
